MAIN TITLE

SUB TITLE

1. The tremendous and unending task of supplying the world with wood through the years to come is being prepared for by a system of reforestation.
2. Within recent years Forestry has received a great deal of attention and schemes formed whereby the Public will be benefited.
3. Transplanting takes place when a seedling is from 1 to 2 years old.
4. After 2 more years the tree is again transplanted, this time to gain enough room to grow up in.
5. There is little wonder at this important step in Forest History after viewing just one of the many lumber drives.
6. The axe and saw have cut deep into the heart of the American Forests, and each year brings still greater demands for timber.
7. Making a bed-so that its blanket of water may carry its burden of logs to market.
8. Helping "Old Sol" rid the water of ice.
9. Each log that plunges down through the dam on its mission of usefulness should be accounted for by planting one of the same species.
10. The workers in this great cathedral of nature have every opportunity to catch the true joys of life.
11. Skillful in the various lines that go to make up an expert lumberjack ----
12. ---- and one willing to risk his life every day during the log drive.
13. Each tree is marked before being felled, this mark identifying it to the owners.
14. With the gathering of the clan.

(The End)
